REASON FOR PROCEDURE OUTLINE

For the protection and safety of Facilities Management employees, as well as students, faculty and staff of the campus, Facilities Management participates in a program to provide articles of clothing which identify employees of the department as well as provides University ID cards. It also provides security for our employees and the UND campus community by identifying Facilities Management (FM) employees in areas they may be assigned to work but are unfamiliar to the occupants. This practice also gives FM employees a professional image and visual recognition as they perform their various assignments.

SCOPE OF PROCEDURES & GUIDELINES

This applies to all members of the Facilities Management department. This includes all the departments under the Associate Vice President of Facilities Management (Facilities Management, Planning Design Construction, Parking Services, And Transportation). No dress code can cover all contingencies. Employees must exert a certain amount of judgment in their choice of clothing to wear to work. Exceptions may be approved by the supervisor/director on a case-by-case basis and through prior coordination, depending on the activity. Examples include, but are not limited to, evening or weekend work, in-service training or staff retreats, travel days to conferences, or severe weather. It is implied the uniform be worn for UND purposes only. Any questions or doubts as to what is or is not appropriate should be directed to supervisors and/or directors.
